Description

### **Solowheel Electric Self-balancing Vehicle**

 The Solowheel is a single wheeled, battery operated, self-balancing vehicle.

Stop in and see the amazing SoloWheel. We have a demo unit if you would like to try it out. Although it is not as easy as riding a bike, it can be learned in a few hours to a few weeks, depending on your agility and determination. We may try to figure out training sessions in the spring. Feel free to come in and see a demo or call with any questions.
